~~Dear Mrs. Jacobson,~~

~~Please me for being so slow in writing, and acknowledging the gift~~

Dear Man,

Please excuse me for using this air form but I didn't want to throw it away. Some class in the Bridgeport Church sent me a few dollars and I started to write & thank them but I left out a word.

I will be going to Murree on Monday the 30th. to send my mail there. There will be someone here to forward any mail that might come here.

Yes I receive one of the cardigan fillant for the packages with the contents on. Customs here keep the other. They sometime keep an article or two but it doesn't do any good to complain. This country and all other countries without the Bible have a completely different moral standard than we do. It's not wrong to steal its only way to get caught. I think that's are reason its so hard to preach to these people. They have no minds & don't know why they need them because they don't know what they are.

Don't ever send anything of value in a package as they never get through. We get foodstuffs hay & clothing, but no other articles would ever make it.

I still have my Govt. insurance in case you are wondering. I just pay the premium for the coming year until May '57.

It's been very hot, well over a hundred, and yesterday we had a rugged desert storm. I will get 5 months this summer again in Murree then after this only two months a year there.

I have been very well ever since the malaria. The mosquitoes are very thick here now. There are hundreds of them

Senders name and address: -

in the room during the day. They stay in all of our stuff during the day & come out at night

I received the package from the Parkerville group okay same time ago. I wrote & thanked Charlie N. for it.

mom, I imagine Shaddy will stop sending the money. I forgot about the trouble you had with them. I don't like to involve the mission in it. I'll wait a month or two & then if they continue to send money I will write & ask them to stop.

I've been doing all my packing & still studying Urdu & a few other things. Am trying to take a few pictures to send you later. Colored. I got a roll of film for Co but its very old. I could use a roll of 35 M.M. colored film with 20 exposures. I have a camera also. Am finishing this at 6:00 in the morning & its real cool. Its down to 70°. Love Clyde.
