

FORREST DELL
CART ROAD
MURREE
Aug 6, 1958

Dear Mom,

Happy Birthday !!! I tried to get a little sea-belle for a present for you, but instead little Philip Nathan arrived. I didn't want to send him back so I said "next time maybe it will be sea-belle".

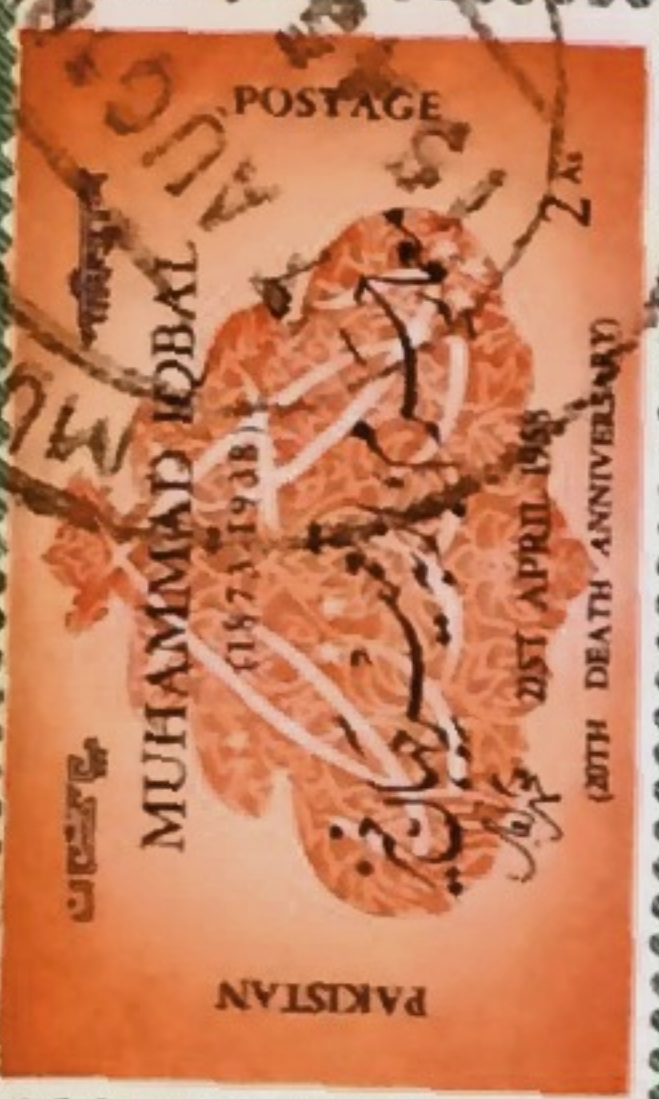

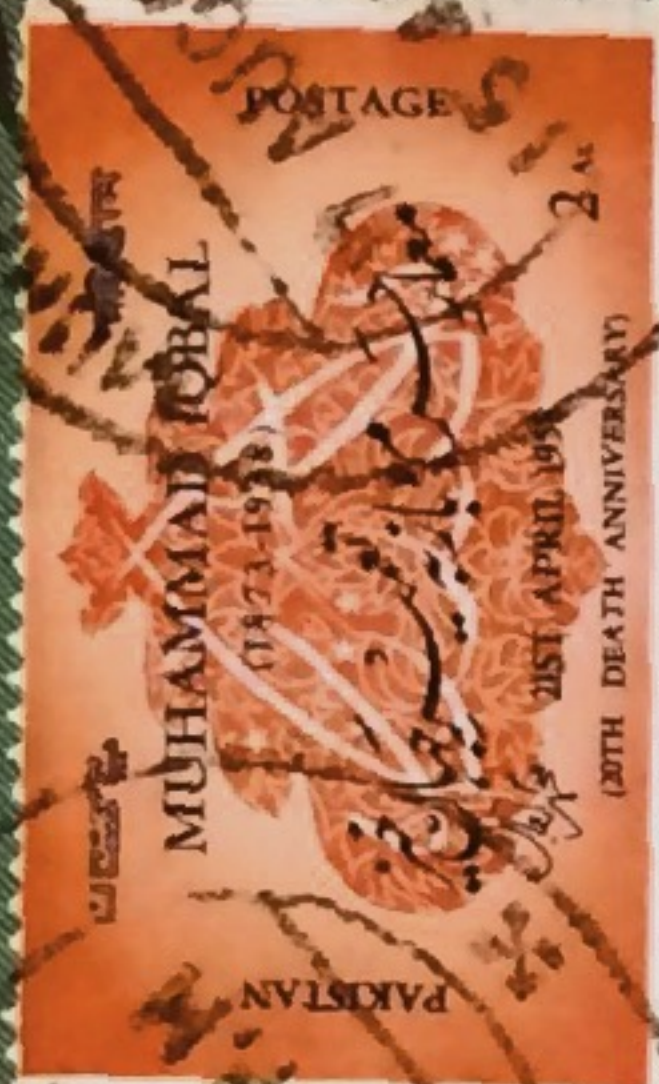

Mary is fine. He never had a bit of trouble ~~starting~~ getting up the third day some. Philip also is in good shape. He weighed about 6 $\frac{1}{2}$ lbs. & was quite red & thin but in a few days I think he will fill out & be a big boy. Mary's milk is just starting to come so now he can eat. He was born at 2 P.M. Sunday the third. Mary's labor lasted only 13 hrs. altogether. Only the last two hours were difficult. They had to cut her & put three stitches in.

I watched the entire delivery which was here in our bedroom. Dr. Jean Orr & her two assistants who live in the house here delivered the baby, & these two girls; all three of are from Scotland and are Plymouth Brethren missionaries. They live in Milton also; live in the house here & take care of Mary & the baby.

some. Mary needs to be cleaned & dressed every
time she used the bathroom.

I enjoyed watching the delivery, but I
really felt bad during the last two hours
when Mary suffered quite a bit. He is
small & ~~the~~ the doctor thought the delivery
would be longer & harder also because of her
age. All in all it was very good.

She had two shots of Pethedrine to
ease pain & then she had a little Trilene
inhalor to breathe from during every group
of pains. It was really an interesting thing.

We take care of the baby ourselves which is
interesting too. He learns after only one day certain things.
Who you need money to send the coffee?
If so let me know & I'll send it.
Love Alice & Mary.

I received the last check also. Send July post.
